

Plate-i Plus Accessories

Mount it where your project needs it.

Every installation is different. We offer compatible mounting solutions for wall, pole, ceiling and corner setups, designed for clean and stable deployment of the Plate-i Plus family.

Available mounting configurations

Ceiling Mount

For overhead mounting in car parks, lanes under canopies, and indoor access points.

Wall Mount

For side mounting at gates, barriers, and parking entrances.

Pole Mount

For mounting on existing posts and masts in outdoor access and perimeter setups.

Corner Mount

For corner installations where the camera needs a precise viewing angle into the lane.

Complete your ALPR installation with the right mounting solution.

Mounting solutions for wall, pole, ceiling and corner installations.
